SUBJECT INDEX TO VOLUME 28 (1987)

Adenosine triphosphate
Optical absorption; Copper ion (Onori, G.) 183

Albumin
Diffusion constant; Dynamic light scattering; Charge effect; Polyelectrolyte (Hirakawa, F.) 253

Amino acid-mononucleoside interaction
Ultraviolet absorbance; Hydrogen bonding; Stacking (Shimizu, M.) 169

γ-Aminobutyric acid
Fourier transform infrared spectroscopy; Membrane model; Neurotransmitter; Dihexadecyl phosphate vesicle; Histamine; Histamine-GABA interaction (Nafi, M.M.) 207

Anisotropy decay
Fluorescence decay (Ludescher, R.D.) 59

Apparent number average molecular weight
Ovalbumin; Lysozyme; Membrane osmometry; Mixed association; Nonideal solution; Association constant (McCarty, B.W.) 149

Association constant
Ovalbumin; Lysozyme; Membrane osmometry; Mixed association; Nonideal solution; Apparent number average molecular weight (McCarty, B.W.) 149

Bacteriorhodopsin
Mosaic nonequilibrium thermodynamics; Optimization, Entropy production; Proton pumping, Slip; Coupling (Juretić, D.) 21

Binding constant
Sedimentation equilibrium; Heterogeneous association; Self-association; Stoichiometry; Nonlinear regression (Lollar, P.) 245

Bohr effect
Oxygen affinity; Hemoglobin S; pH dependence; Phosphate effect; Polyphosphate effect (Campbell, B.) 215

Boundary condition approach
Chemoreception (Geurts, B.J.) 7

Bovine serum albumin
Fluorescence lifetime; Tryptophan fluorescence; Fluorescence anisotropy decay; pH effect; Protein conformation (Brewer, J.M.) 77

Bulk modulus anomaly
Ca^{2+}; Phospholipid binding; Ca^{2+}-binding fluctuation (Suezaki, Y.) 13

Ca^{2+}
Phospholipid binding; Bulk modulus anomaly; Ca^{2+}-binding fluctuation (Suezaki, Y.) 13
Parvalbumin; α-Lactalbumin; Mg^{2+}; Dissociation kinetics (Permyakov, E.A.) 225

Ca^{2+}-binding fluctuation
Ca^{2+}; Phospholipid binding; Bulk modulus anomaly (Suezaki, Y.) 13

Calcium phosphate
Hydrogen bond; Protein side chain; Infrared spectroscopy (Carmona, P.) 161

Charge effect
Diffusion constant; Dynamic light scattering; Albumin; Polyelectrolyte (Hirakawa, F.) 253

Chemoreception
Boundary condition approach (Geurts, B.J.) 7

Chlorophyll
Magnetic circular dichroism; Liquid crystal (Frackowiak, D.) 101

Chromatin
Protein ϕ_0; Histone H1; Nucleosome; Spermatogenesis (Olivares, C.) 51

Coated pit
Membrane protein; Receptor diffusion; Fractional exponential decay (Wiegel, F.W.) 1

Conformational analysis
Nuclear Overhauser effect; 2D NMR; Molecular model; Lipopeptide; Spin diffusion (Marion, D.) 235

Copper ion
Optical absorption; Adenosine triphosphate (Onori, G.) 183

Counterion binding
Sound velocity; Polyacrylate; Tetraalkylammonium ion; Neutralization degree (Koda, S.) 115

Coupling
Mosaic nonequilibrium thermodynamics; Bacteriorhodopsin; Optimization; Entropy production; Proton pumping; Slip (Juretić, D.) 21

Cross-linked crystal
Lysozyme; Stress-strain diagram; Mechanical denaturation; Ultimate strength (Gorelov, A.V.) 199

Decay-time distribution
Fluorescence decay; Kinetics; Frequency-domain fluorometry (Lakowicz, J.R.) 35

Diffusion constant
Dynamic light scattering; Albumin; Charge effect; Polyelectrolyte (Hirakawa, F.) 253

Dihexadecyl phosphate vesicle
Fourier transform infrared spectroscopy; Membrane model; Neurotransmitter; Histamine; γ-Aminobutyric acid; Histamine-GABA interaction (Nafi, M.M.) 207

Dipole moment
Linear dichroism; Lac repressor; Rotational relaxation (Pörschke, D.) 137

Dissociation kinetics
Parvalbumin; α-Lactalbumin; Ca^{2+}; Mg^{2+} (Permyakov, E.A.) 225
DNA absorption
DNA-drug interaction; Platinum complex; Interfacial unwinding; Water/mercury interface (Kašparová, D.) 191
DNA-drug interaction
Platinum complex; DNA adsorption; Interfacial unwinding; Water/mercury interface (Kašparová, D.) 191
DNA-dye interaction
Dye binding; DNA intercalation; Thermodynamics; Solvation effect (Varani, G.) 175
DNA intercalation
Dye binding; Thermodynamics; Solvation effect; DNA-dye interaction (Varani, G.) 175
Dye binding
DNA intercalation; Thermodynamics; Solvation effect; DNA-dye interaction (Varani, G.) 175
Dynamic light scattering
Diffusion constant; Albumin; Charge effect; Polyelectrolyte (Hirakawa, F.) 253

Effective Hamiltonian
Inhomogeneous polymer; Quenched disorder; Replica trick; θ point (Fernández, A.) 89
Electric potential
Self-oscillation; Model membrane; Nonequilibrium; Na^+/K^+ difference (Iiyama, S.) 129
Entropy production
Mosaic nonequilibrium thermodynamics; Bacteriorhodopsin; Optimization; Proton pumping; Slip; Coupling (Juretić, D.) 21
Erythrocyte membrane
Membrane fluidity; Lateral diffusion; High-pressure effect; Excimer; Membrane dynamics (Eisinger, J.) 273
Excimer
Membrane fluidity; Erythrocyte membrane; Lateral diffusion; High-pressure effect; Membrane dynamics (Eisinger, J.) 273

Fluorescence anisotropy decay
Bovine serum albumin; Fluorescence lifetime; Tryptophan fluorescence; pH effect; Protein conformation (Brewer, J.M.) 77
Fluorescence decay
Decay-time distribution; Kinetics; Frequency-domain fluorometry (Lakowicz, J.R.) 35
Anisotropy decay (Ludescher, R.D.) 59
Fluorescence depolarization
Fluorescence lifetime; Membrane surface; Pyridoxal 5′-phosphate (Greenaway, F.T.) 265
Fluorescence lifetime
Bovine serum albumin; Tryptophan fluorescence; Fluorescence anisotropy decay; pH effect; Protein conformation (Brewer, J.M.) 77
Fluorescence depolarization; Membrane surface; Pyridoxal 5′-phosphate (Greenaway, F.T.) 265
Fourier transform infrared spectroscopy
Membrane model; Neurotransmitter; Dihexadecyl phosphate vesicle; Histamine; γ-Aminobutyric acid; Histamine-GABA interaction (Nafi, M.M.) 207
Fractional exponential decay
Membrane protein; Coated pit; Receptor diffusion (Wiegel, F.W.) 1
Frequency-domain fluorometry
Fluorescence decay; Decay-time distribution; Kinetics (Lakowicz, J.R.) 35

Glutamate dehydrogenase
Indefinite self-association; Statistical thermodynamics; Translational entropy; Rotational entropy; Nonideality (Chatelier, R.C.) 121

Hemoglobin S
Oxygen affinity; pH dependence; Phosphate effect; Polyphosphate effect; Bohr effect (Campbell, B.) 215
Heterogeneous association
Binding constant; Sedimentation equilibrium; Self-association; Stoichiometry; Nonlinear regression (Lollar, P.) 245
High-pressure effect
Membrane fluidity; Erythrocyte membrane; Lateral diffusion; Excimer; Membrane dynamics (Eisinger, J.) 273
Histamine
Fourier transform infrared spectroscopy; Membrane model; Neurotransmitter; Dihexadecyl phosphate vesicle; γ-Aminobutyric acid; Histamine-GABA interaction (Nafi, M.M.) 207
Histamine-GABA interaction
Fourier transform infrared spectroscopy; Membrane model; Neurotransmitter; Dihexadecyl phosphate vesicle; Histamine; γ-Aminobutyric acid (Nafi, M.M.) 207
Histone H1
Protein ϕ_0; Chromatin; Nucleosome; Spermatogenesis (Olivares, C.) 51
Hydrogen bond
Protein side chain; Calcium phosphate; Infrared spectroscopy (Carmona, P.) 161
Hydrogen bonding
Amino acid-mononucleoside interaction; Ultraviolet absorbance; Stacking (Shimizu, M.) 169

Indefinite self-association
Glutamate dehydrogenase; Statistical thermodynamics; Translational entropy; Rotational entropy; Nonideality (Chatelier, R.C.) 121
Infrared spectroscopy
Hydrogen bond; Protein side chain; Calcium phosphate (Carmona, P.) 161
Inhomogeneous polymer
Quenched disorder; Replica trick; Effective Hamiltonian; θ point (Fernández, A.) 89

Interfacial unwinding
DNA-drug interaction; Platinum complex; DNA adsorption; Water/mercury interface (Kašparová, D.) 191

Kinetics
Fluorescence decay; Decay-time distribution; Frequency-domain fluorometry (Lakowicz, J.R.) 35

Lac repressor
Dipole moment; Linear dichroism; Rotational relaxation (Pörschke, D.) 137

α-Lactalbumin
Parvalbumin; Ca^{2+}; Mg^{2+}; Dissociation kinetics (Permyakov, E.A.) 225

Lateral diffusion
Membrane fluidity; Erythrocyte membrane; High-pressure effect; Excimer; Membrane dynamics (Eisinger, J.) 273

Linear dichroism
Dipole moment; Lac repressor; Rotational relaxation (Pörschke, D.) 137

Lipopeptide
Nuclear Overhauser effect; Conformational analysis; 2D NMR; Molecular model; Spin diffusion (Marion, D.) 235

Liquid crystal
Chlorophyll; Magnetic circular dichroism (Frackowiak, D.) 101

Lysozyme
Ovalbumin; Membrane osmometry; Mixed association; Nonideal solution; Apparent number average molecular weight; Association constant (McCarty, B.W.) 149
Cross-linked crystal; Stress-strain diagram; Mechanical denaturation; Ultimate strength (Gorelov, A.V.) 199

Magnetic circular dichroism
Chlorophyll; Liquid crystal (Frackowiak, D.) 101

Mechanical denaturation
Lysozyme; Cross-linked crystal; Stress-strain diagram; Ultimate strength (Gorelov, A.V.) 199

Membrane dynamics
Membrane fluidity; Erythrocyte membrane; Lateral diffusion; High-pressure effect; Excimer (Eisinger, J.) 273

Membrane fluidity
Erythrocyte membrane; Lateral diffusion; High-pressure effect; Excimer; Membrane dynamics (Eisinger, J.) 273

Membrane model
Fourier transform infrared spectroscopy; Neurotransmitter; Dihexadecyl phosphate vesicle; Histamine; γ-Aminobutyric acid; Histamine-GABA interaction (Nafi, M.M.) 207

Membrane osmometry
Ovalbumin; Lysozyme; Mixed association; Nonideal solution; Apparent number average molecular weight; Association constant (McCarty, B.W.) 149

Membrane protein
Coated pit; Receptor diffusion; Fractional exponential decay (Wiegel, F.W.) 1

Membrane surface
Fluorescence lifetime; Fluorescence depolarization; Pyridoxal 5′-phosphate (Greenaway, F.T.) 265

Mg^{2+}
Parvalbumin; α-Lactalbumin; Ca^{2+}; Dissociation kinetics (Permyakov, E.A.) 225

Mixed association
Ovalbumin; Lysozyme; Membrane osmometry; Nonideal solution; Apparent number average molecular weight; Association constant (McCarty, B.W.) 149

Model membrane
Self-oscillation; Electric potential; Nonequilibrium; Na^+/K^+ difference (Iiyama, S.) 129

Molecular model
Nuclear Overhauser effect; Conformational analysis; 2D NMR; Lipopeptide; Spin diffusion (Marion, D.) 235

Mosaic nonequilibrium thermodynamics
Bacteriorhodopsin; Optimization; Entropy production; Proton pumping; Slip; Coupling (Juretić, D.) 21

Na^+/K^+ difference
Self-oscillation; Electric potential; Model membrane; Nonequilibrium (Iiyama, S.) 129

Neurotransmitter
Fourier transform infrared spectroscopy; Membrane model; Dihexadecyl phosphate vesicle; Histamine; γ-Aminobutyric acid; Histamine-GABA interaction (Nafi, M.M.) 207

Neutralization degree
Counterion binding; Sound velocity; Polyacrylate; Tetraalkylammonium ion (Koda, S.) 115

2D NMR
Nuclear Overhauser effect; Conformational analysis; Molecular model; Lipopeptide; Spin diffusion (Marion, D.) 235

Nonequilibrium
Self-oscillation; Electric potential; Model membrane; Na^+/K^+ difference (Iiyama, S.) 129

Nonideal solution
Ovalbumin; Lysozyme; Membrane osmometry; Mixed association; Apparent number average molecular weight; Association constant (McCarty, B.W.) 149

Nonideality
Indefinite self-association; Glutamate dehydrogenase; Statistical thermodynamics; Translational entropy; Rotational entropy (Chatelier, R.C.) 121

Nonlinear regression
Binding constant; Sedimentation equilibrium; Heterogeneous association; Self-association; Stoichiometry (Lollar, P.) 245
Nuclear Overhauser effect
Conformational analysis; 2D NMR; Molecular model; Lipopeptide; Spin diffusion (Marion, D.) 235
Nucleosome
Protein ϕ_0; Histone H1; Chromatin; Spermatogenesis (Olivares, C.) 51

Optical absorption
Copper ion; Adenosine triphosphate (Onori, G.) 183
Optimization
Mosaic nonequilibrium thermodynamics; Bacteriorhodopsin; Entropy production; Proton pumping; Slip; Coupling (Juretić, D.) 21
Ovalbumin
Lysozyme; Membrane osmometry; Mixed association; Nonideal solution; Apparent number average molecular weight; Association constant (McCarty, B.W.) 149
Oxygen affinity
Hemoglobin S; pH dependence; Phosphate effect; Polyphosphate effect; Bohr effect (Campbell, B.) 215

Parvalbumin
α-Lactalbumin; Ca^{2+}; Mg^{2+}; Dissociation kinetics (Permyakov, E.A.) 225
pH dependence
Oxygen affinity; Hemoglobin S; Phosphate effect; Polyphosphate effect; Bohr effect (Campbell, B.) 215
pH effect
Bovine serum albumin; Fluorescence lifetime; Tryptophan fluorescence; Fluorescence anisotropy decay; Protein conformation (Brewer, J.M.) 77
Phosphate effect
Oyxgen affinity; Hemoglobin S; pH dependence; Polyphosphate effect; Bohr effect (Campbell, B.) 215
Phospholipid binding
Ca^{2+}; Bulk modulus anomaly; Ca^{2+}-binding fluctuation (Suezaki, Y.) 13
Platinum complex
DNA-drug interaction; DNA adsorption; Interfacial unwinding; Water/mercury interface (Kašparová, D.) 191
θ point
Inhomogeneous polymer; Quenched disorder; Replica trick; Effective Hamiltonian (Fernández, A.) 89
Polyacrylate
Counterion binding; Sound velocity; Tetraalkylammonium ion; Neutralization degree (Koda, S.) 115
Polyelectrolyte
Diffusion constant; Dynamic light scattering; Albumin; Charge effect (Hirakawa, F.) 253
Polyphosphate effect
Oxygen affinity; Hemoglobin S; pH dependence; Phosphate effect; Bohr effect (Campbell, B.) 215
Protein conformation
Bovine serum albumin; Fluorescence lifetime; Tryptophan fluorescence; Fluorescence anisotropy decay; pH effect (Brewer, J.M.) 77
Protein side chain
Hydrogen bond; Calcium phosphate; Infrared spectroscopy (Carmona, P.) 161
Protein ϕ_0
Histone H1; Chromatin; Nucleosome; Spermatogenesis (Olivares, C.) 51
Proton pumping
Mosaic nonequilibrium thermodynamics; Bacteriorhodopsin; Optimization; Entropy production; Slip; Coupling (Juretić, D.) 21
Proton transfer
Vision; Quantum-mechanical calculation (Riveros, O.J.) 93
Pyridoxal 5′-phosphate
Fluorescence lifetime; Fluorescence depolarization; Membrane surface (Greenaway, F.T.) 265

Quantum-mechanical calculation
Proton transfer; Vision (Riveros, O.J.) 93
Quenched disorder
Inhomogeneous polymer; Replica trick; Effective Hamiltonian; θ point (Fernández, A.) 89

Receptor diffusion
Membrane protein; Coated pit; Fractional exponential decay (Wiegel, F.W.) 1
Replica trick
Inhomogeneous polymer; Quenched disorder; Effective Hamiltonian; θ point (Fernández, A.) 89
Rotational entropy
Indefinite self-association; Glutamate dehydrogenase; Statistical thermodynamics; Translational entropy; Nonideality (Chatelier, R.C.) 121
Rotational relaxation
Dipole moment; Linear dichroism; Lac repressor (Pörschke, D.) 137

Sedimentation equilibrium
Binding constant; Heterogeneous association; Self-association; Stoichiometry; Nonlinear regression (Lollar, P.) 245
Self-association
Binding constant; Sedimentation equilibrium; Heterogeneous association; Stoichiometry; Nonlinear regression (Lollar, P.) 245
Self-oscillation
Electric potential; Model membrane; Nonequilibrium; Na^+/K^+ difference (Iiyama, S.) 129
Slip
Mosaic nonequilibrium thermodynamics; Bacteriorhodopsin; Optimization; Entropy production; Proton pumping; Coupling (Juretić, D.) 21
Solvation effect
Dye binding; DNA intercalation; Thermodynamics; DNA-dye interaction (Varani, G.) 175

Sound velocity
Counterion binding; Polyacrylate; Tetraalkylammonium ion; Neutralization degree (Koda, S.) 115

Spermatogenesis
Protein ϕ_0; Histone H1; Chromatin; Nucleosome (Olivares, C.) 51

Spin diffusion
Nuclear Overhauser effect; Conformational analysis; 2D NMR; Molecular model; Lipopeptide (Marion, D.) 235

Stacking
Amino acid-mononucleoside interaction; Ultraviolet absorbance; Hydrogen bonding (Shimizu, M.) 169

Statistical thermodynamics
Indefinite self-association; Glutamate dehydrogenase; Translational entropy; Rotational entropy; Nonideality (Chatelier, R.C.) 121

Stoichiometry
Binding constant; Sedimentation equilibrium; Heterogeneous association; Self-association; Nonlinear regression (Lollar, P.) 245

Stress-strain diagram
Lysozyme; Cross-linked crystal; Mechanical denaturation; Ultimate strength (Gorelov, A.V.) 199

Tetraalkylammonium ion
Counterion binding; Sound velocity; Polyacrylate; Neutralization degree (Koda, S.) 115

Thermodynamics
Dye binding; DNA intercalation; Solvation effect; DNA-dye interaction (Varani, G.) 175

Translational entropy
Indefinite self-association; Glutamate dehydrogenase; Statistical thermodynamics; Rotational entropy; Nonideality (Chatelier, R.C.) 121

Tryptophan fluorescence
Bovine serum albumin; Fluorescence lifetime; Fluorescence anisotropy decay; pH effect; Protein conformation (Brewer, J.M.) 77

Ultimate strength
Lysozyme; Cross-linked crystal; Stress-strain diagram; Mechanical denaturation (Gorelov, A.V.) 199

Ultraviolet absorbance
Amino acid-mononucleoside interaction; Hydrogen bonding; Stacking (Shimizu, M.) 169

Vision
Proton transfer; Quantum-mechanical calculation (Riveros, O.J.) 93

Water/mercury interface
DNA-drug interaction; Platinum complex; DNA adsorption; Interfacial unwinding (Kašparová, D.) 191

Fluorescence lifetime and polarization anisotropy studies of membrane surfaces with pyridoxal 5′-phosphate (BPC 01205)
F.T. Greenaway and J.W. Ledbetter (U.S.A.) 265

The lateral fluidity of erythrocyte membranes. Temperature and pressure dependence (BPC 01207)
J. Eisinger and S.F. Scarlata (U.S.A.) 273
